During October, repairs on the [redacted] which failed last month during the heat and humidity test, were completed.

Repairs were made by a qualified [redacted] representative. It was the opinion of this person that the damage [redacted] was apparently caused by the heat and humidity involved in the test. This apparently weakened the cement bond holding [redacted] on the molded nylon bushing, permitting [redacted] to warp and interfere with the die cast housing. The [redacted] mount had functioned in a satisfactory manner and was still operating when [redacted] failed.

Low temperature tests of [redacted] will be performed in the very near future. This will be the final test for the [redacted].

FINANCIAL STATEMENT

Total Amount of Contract	\$ 8,668.00
Expenditures for October 1961	34.77
Total Expenditures to 31 October 1961	598.86
Balance of Contract	8,069.14

Expiration Date: 30 May 1962
